Melon Class March-Newsletter

Dear Parents,

This is the end of the year. I really enjoyed the time we spent together. All of you improved so much and I am proud of you!

The theme for this month is spring. The weather is slowly getting warmer and it will be soon be spring!

We will talk about the weather changes in spring and plants and flowers begin to grow. In spring, there are many things we can do outside, especially Cherry Blossoms Picnic. As spring comes, there're so many things we can learn about!

To support our theme

At school- We will be having a big Cherry Blossoms Picnic! We'll play games together, enjoy the new cherry blossoms on the trees and eat lunch! All parents are invited to join!

At home- To develop observation skills take your child on a walk through the park to see the new plants that are growing.

To remind our children how the seasons change, we can talk about how the weather begins to get warmer in March and we can start to see flowers and plants grow.

This will be the last month for the kids being transferred to Grape Class. Thank you so much for all the great time we had together and very big congratulations to the Grape Class students! I hope you had fun and learned a lot at our school!

Good luck to all of you.

**Best regards
Ms Chandrima**
